BISBEE PEOPLE MAY ASK DIAZ FOR A "DRY" ZONE ALONG BORDER

Bisbee, Ariz., Jan. 21.—It is rumored that if the election Jan. 25 be against the saloons, the "dry" of this county will ask president Diaz for a 50 mile dry zone along the Mexican border. It is also said that the anti-saloon league has already submitted the question to secretary Knox through senator La Follette.
M. Cordova, 19 years old, is being detained in jail on the charge of five robberies, which had yielded him about \$500 in money and a lot of jewels. To these charges are added his attempt to break the walls of the jail, freeing himself and all the other prisoners.

BISBEE PROBES REGISTRATIONS

District Attorney Investigating Alleged Importation of Voters.
Bisbee, Ariz., Jan. 21.—The district attorney of this county is vigorously investigating some cases of fraudulent registrations which, it is alleged, have occurred here for the local elections of January 25.
It is rumored that a regular importation of voters has been carried on during the last few weeks and the county authorities are determined to act with the greatest severity.
Following the meeting of the Bisbee merchants with the Arizona board of railroad commissioners it is believed that some reductions will be obtained on express rates from the Wells-Fargo company.
It is announced that freight rates on the El Paso & Southwestern railroad company will soon be reduced. This will satisfy producers from California and will be of good advantage to shippers to and from El Paso.
James & Phillips have been awarded the contract for the erection of the Elks' lodge in this city. The building will be two stories high. When completed the building, devoid of its furnishings, will cost more than \$20,000.
BANQUET TO GOVERNOR MIER TO COST \$15,000
Chicago Woman Will Have to Wait Until Summer Before Moving Body of Son From Mexico.
Monterey, N. L., Jan. 21.—A banquet which is said to cost a sum of \$15,000, will be given in the Palacio de Gobierno, the state capital, in honor of Gen. Jose M. Mier, governor of Nuevo Leon.
The banquet is to be given by the business men and citizens of Monterey. Mrs. Hayes Thompson, of Chicago, who came here several weeks ago to make an effort to remove the body of her son, who was drowned near this city several years ago, has decided to spend the rest of the winter with friends in San Antonio, Tex., as it will be impossible to move her son's body to the United States until sometime next July. Young Thompson was drowned in a watersport between this city and Saltillo and was buried in Monterey before his mother could arrive here from her home in Chicago.
Mrs. G. S. Sawyer, while regulating an electric iron at her home on Calle Morelos, was badly shocked and came near being killed by the machine. She was buried there could have been probable since the room has been used for banking purposes.
The building is of adobe, with a double outer wall and single inner partitions. It was used at one time as a saloon. That is back in the early 80's when silver mining and much whiskey and more gambling were the leading issues.
There was no bank at that time in this city, and the supposition is that after a series of heavy games which lasted many times all night, the net receipts of the occasion were deposited under the floor for safety, the owner having probably been slain in a fight which occurred early the next afternoon.
The bank has had its money back in its iron box where it will keep it until the owner calls for it and describes it sufficiently to convince the finders that he is entitled to it.

MONEY IS DUG UP UNDER A BANK

Evidently Deposited There in Early Eighties When Bank Was Saloon.
Hillsboro, N. M., Jan. 21.—Quite a bit of surprise was expressed here when the workmen who are remodeling the building of the Sierra County bank dug into a snug sum of money, which seemed to have been there for years ago.
As is well known all over the territory of New Mexico the Sierra County bank has been doing business in the same banking rooms for more than 24 years, and no opportunity for the treasure to be buried there could have been probable since the room has been used for banking purposes.

The American Excess Of Good Living

The Principal Cause of the Great Prevalence of Indigestion and Dyspepsia.
A Trial Package of Stuart's Dyspepsia Tablets Sent Free.
Man inherits every part of the globe where external influences can be successfully resisted. Food is an important element in effecting this, and nature has provided for it accordingly. The stomach is expected to digest food and oily substances are required; the warmer a preponderance of vegetables and fruits is necessary in one's diet.
The whale-blubber of the fur-clad Eskimo, and the rice of the nude African, are as much necessities of locality, as matters of choice. The same indications exist in civilization. Thus, the diet in America and England is essentially different from that in Italy, Spain and Egypt.
The effects of universal communication are nowhere more obvious than on the luxurious table. To furnish the refined cuisine, all climates, both sea and land, are laid under contribution, and the stomach is expected to digest, without assistance everything that is put into it. Combining together such varied products, and the neglect of the relation between climate and foods, are very active causes of dyspepsia.
The heavy substantial dishes, of this climate accord badly with the thermometer at ninety degrees; and inflexibility in regulating the kind and quantity of food is a cause of a large proportion of the ill health and stomach troubles among the English and Americans.
Thousands of people who have suffered from stomach troubles, and a general ill-health resulting therefrom, because of a badly regulated diet, and the ingesting of an excessive amount of food at the table, have obtained speedy and permanent relief by means of a simple expedient—that of using one or two of STUART'S DYSPEPSIA TABLETS after each meal, or whenever any of the well-known symptoms of indigestion are present.
These powerful digestive tablets contain every element that exists in the stomach to digest the food, and in the exact proportion as found therein. They take the place of the natural digestive juices when the latter are deficient in quality or quantity, and do their work for them, removing the indigestion by digesting the food, and restoring, strengthening and purifying the digestive tract.
There is no other digestive remedy on the market which has been found equal to Stuart's Dyspepsia Tablets; none which is so rapidly and powerfully efficient, or which removes discomfort, banishes stomach-pain, and relieves and cures all of the symptoms of dyspepsia and indigestion in so thorough and pleasant a manner as these marvelous little tablets, a single grain of which is capable of digesting 3000 grains of any and every kind of food.
All persons who are annoyed with stomach troubles of any kind should use Stuart's Dyspepsia Tablets, which will remove such troubles in a very short time. Purchase a box from your druggist, and send us name and address for free sample. Address F. A. Stuart Co., 150 Stuart Building, Marshall, Mo.

When the family was discovered their 11 months old baby was dead from exposure and hunger and another child was at the point of death.
